

LETTER OF RECOMMENDATION FOR OMOLE, ADEKUNLE ISAAC

To whom it may concern,

It's my pleasure to highly recommend Mr. Adekunle Omole for your graduate program. Omole is a graduate of Civil Engineering department of The Federal University of Technology, Akure, Nigeria, where I double as his lecturer and course advisor and thereby gave me the avenue to interact with him both professionally and personally. I have had a long teaching career at the department and can say without exaggeration that Adekunle is one of the unique students that I have come across in terms of his outstanding leadership attributes. He was on the Dean's list once. He is disciplined, smart, challenging, hardworking and consistently tries to improve his weakness.

Throughout his undergraduate studies, Omole was involved in different progressive extracurricular activities. He was an active students' leader and General Secretary of civil engineering student's association, without any doubt, I can say he has mastered the act of multitasking and giving accurate result as all his activeness in other areas does not affect his studies. His interpersonal relation, communication, negotiation and leadership skills are top notch as they were evident from the way he interacts with both university management and students.

Adekunle graduated with second class honors (CGPA of 3.19 on a 4.00 scale) but I can assure you as an academic who has observed and seen him grow that his grade does not translate his potentials and abilities as he is motivated and passionate in achieving his career goal. He worked on "Assessment of connectivity indices and traffic indices of road network in Akure, Ondo state" in his undergraduate research.

He is highly articulate and well-versed in spoken and written English, proficient in Information and Communication Technology and very familiar with scientific methods in research. I believe he has great potential as a post-graduate student in your university and I am confident he would be an asset.

In view of the above remarks, I strongly recommend him for admission into the PhD program at your university and also for funding opportunities in your university.

Thank you.

Yours Faithfully,

A handwritten signature in blue ink, appearing to read 'Mary Ojo', enclosed within a circular scribble.

Dr. Mary Ojo.
